#### To the Public. JACKSON, KY., JUNE, 5, 1908.

To the citizens of Breathitt It seems that I was proven guilty of a bad case of murder. I can't say I was wrongfully done by getting a life sentence in the state prison, but I can truthfully say I don't feel guilty of such a deed, because I was in such condition at the time that I don't remember of killing Charles Robinson. I only remember that he made me mad and being drunk at the time and by him making me mad that I was not conscious of what I done. If the people had not told me I had killed the deceased I would never realized I had killed a man. I can truly say that God does not hold me responsible for murder. I go by my conscience. I can say that God is my helper and He will help me through. I began to put my trust in Him last November and He is my best friend now and I don't believe that God will let me remain in prison long; I have that faith in Him for He knows that I was not | \$\square\$ responsible at the time I done the

#### NOTABLE GATHERING Of Democrats at State Convention.

The Democratic State Convento the National Convention to be held at Denver, began at the Auditorium at Lexington at half after two o'clock Thursday afternoon. There were gathered there over a thousand delegates and an equal number of alternates, selected by the Democrats of the various counties of Kentucky, to whom was delegated the duty of acting for those whom they rep. resented.

Democrats poured into Lexington from all the 119 counties to attend the first state convention that has been held in the commonwealth since 1904. The delegates were a fine and representative body of men, happy to be together again to outline party policies and to endeavor to get together to capture the State for W. J. Bryan.

The reorganization element is in the saddle, as was shown in the race for temporary chairman, when Beckman saw the sentiment was against him and withdrew his name from the race.

\* One thing seemed to have been agreed upon that is, that the party rules shall be amended so that the precinct committeeman shall be selected in the cities as they are in the country, by the direct vote of the people instead of by ap-pointment by the member of the State Central Committee.

There is also a strong sentimenment in favor of incorporating in the party law a rule prohibiting a Federal, State, city or county official from erving on any party committee and requiring the resigsuch officials from

They were waiting for us on the Dr. Penrose was there, and Mr. Merton, and Cap'n Benijah Poundberry, chairman of selectmen, and Scudder, and Peter T. Brown, manager of the Old Home house. They was all laughing, and thinking the whole thing a big joke.

We walked on together the rest of the way, laughing and talking. Nobody took the business serious at all. They all thought Washy would go to work when he found 'twas either that or get out and hustle for a place to put his head in.

We marched into the Sparrow yard like a Fourth of July parade. Hartley knocked at the kitchen door. Editha opened it.

"That's enough of this. It's plain that he doesn't intend to accept. Mr. Scudder, you have given him formal notice. Come on."

Then Washy broke down. He sniffed and half cried and wanted to know things. The work would kill him in a day or so, of course, but he didn't mind that. When he thought of his poor fatharless children-

'Twas Lord James that was driving the buggy, and there was a young woman with him. The young woman

The next minute she was in the room, staring solema at all us men. And her eyes emed to look right through a feller.

The White Plague. The fat was all in the fire. Hartley's great scheme that he thought was going to help Eureka, and that I callated would be one more big boost for him in the Page girl's eyes, had gone to pot to see the kettle bile. Instead of getting rid of Papa Sparrow, it had fetched that old hypocrite right over to eat and sleep and groan under our very noses. And, instead of helping Martin's love business, it had knocked the keel right out of it and left him stranded with a bigger reputation than ever for cold-blooded. mercenary money-grabbing. Sweet

He was more reckless and his 'don't care" manner was back again; only, now that his health was so good, it showed in other ways.

The two of 'em took to raising the very Old Boy. They must be up to something all the time. The island wa'n't big enough to hold 'em and they was crowded over into the village, so to speak. They got mixed up with some of the men boarders at the hotel and 'twas "Whoop!" and "Hooray!' all the time.

They and the boarders got horse ut of the livery stable and had race right through the main street; goin, it licketty-cut and scandalizing the neighbors and scaring old women into conniption fits. Deacon Patterson had a new horse and the deacon happened to be setting in his buggy in front of the Boston dry goods and variety store when the racers went by. The racket seared the critter and he bolted, an there was the deacon going down the road in the middle of the race, hol ering "Whoa!" to heat the cars, with his hat off and his hair a-flying. Lota of the sewing circle women saw him and 'twas town talk for weeks. The deacon was going to have the Twins took up and sent to fail, but he didn't.

He prayed for em in meeting instead. Van Brunt got another letter from Agues pretty quick after the race. She'd beard about it and she give him fits. Why was it necessary for him-she didn't mention Martin-to shock the community and public opin ion? She wanted to know that and other things similar. He read a little of the letter to Hartley and that's how I heard it. I'd have heard more, probahly, only Hartley got up and walked off. And he was blue as a whetstone for the rest of the day.

I guess the Talford girl wa'n't quite so shocked. Anyhow me and Van met her up in the village one afternoon and she wanted to know all about the

She read when she dusted, holding the dust cloth in one hand and a magazine in t'other. She read when she ate. She went upstairs at night reading; and I wouldn't wonder if she read in her sleep.

Washy had been pretty decent, for him, for the first week after he landed in his new quarters. But his decency didn't last long. He begun to fuss and find fault and groan and growl. Miss Page sent him nice things to eat-and he always ate 'em every speck him Ar Cannel City self-and medicine, which he 'took about a spoonful of and then said EAST BOUND twa'n't helping him none and give it up.
